Strong scaling from one core to eight nodes
pure MPI, 3D blocks, overlapped halo, classic CG; 32 processes per node, 50 iterations, best of 3 runs
(a) Speedup
ideal
512³, vs. serial code
768³, vs. one node × 32
speedup
one node
MPI processes P
(b) Efficiency
parallel efficiency (%)
512³, vs. serial code
512³, vs. one node
768³, vs. one node
MPI processes P
